

Steps to install and use Sadad QAR extension on Joomla Virtuemart:

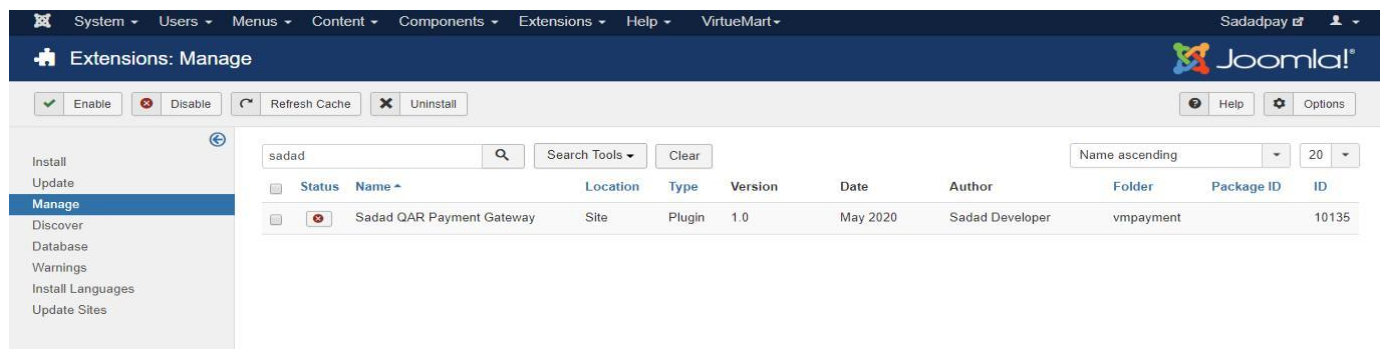

Prerequisites:

- This extension is only for Joomla Virtuemart. In order to make this extension work, Virtuemart must be installed and the currency must be set to QAR.

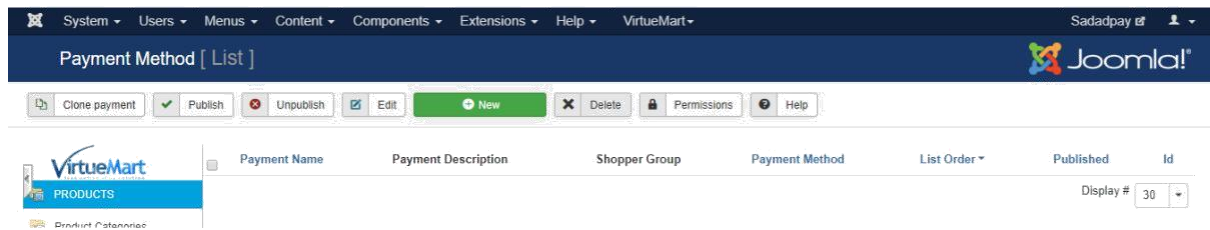

1. Login to admin and go to Extensions >> Manage >> Install from top menu.

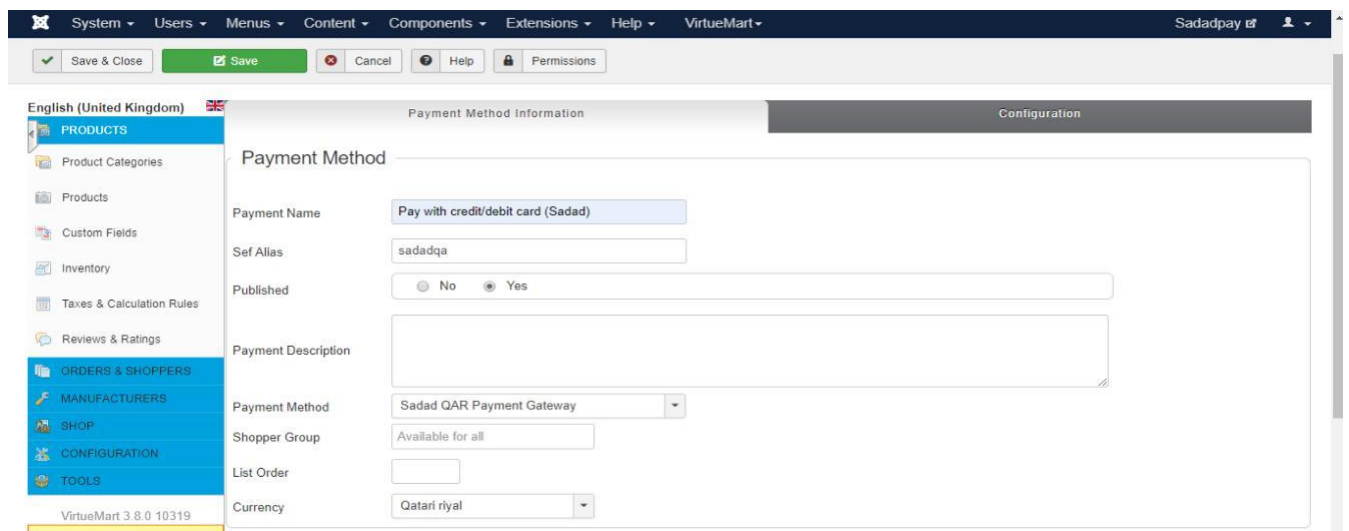

2. Upload sadadqa.zip file and then go to Extensions >> Manage >> Manage from top menu. In search bar type sadad and results like image below should appear:

3. Check the box in front of Sadad QAR Payment Gateway and click Enable from top left. It will enable extension.
4. Now from top menu bar go to Virtuemart >> Payment methods. Click on New button from top.

5. In Payment method information tab you should select Payment method value as “Sadad QAR Payment Gateway” in dropdown. Other values except currency can be set to anything as per your choice. The value Published should be set to Yes. Set Alias should be “sadadqa” (without quotes)

6. Click on Save from top and then click on Configuration tab. When you click configure it will open settings page and enter your settings there and make sure you set status as Enabled and the website field should be according to your secret key. Just specify your domain name(website) without http:// or https://. Example value: www.xyz.com.
7. You can use Web checkout 2.2 option only if it is enabled by Sadad administrator. Otherwise you'll get error after clicking Pay now.
8. Keep Order statuses as they are if you're not planning to customize the extension. Click on Save button from top left and on frontend on checkout page you will see this payment method name (which you set in step 5).
